

1. Describe the action on the ArrayList (or array) elements through the larger for loop of the **BUBBLE SORT**.

86                      23                      73                      45                      31                      14                      59

2. Describe the action on the ArrayList (or array) elements through the larger for loop of the **BUBBLE SORT**.

W                      Z                      K                      S                      I                      B                      G

3. Describe the action on the ArrayList (or array) elements through the larger for loop of the **SELECTION SORT**.

86                      23                      73                      45                      31                      14                      59

4. Describe the action on the ArrayList (or array) elements through the larger for loop of the **SELECTION SORT**.

W                      Z                      K                      S                      I                      B                      G

5. Describe the action on the ArrayList (or array) elements through the larger for loop of the **INSERTION SORT**.

86                      23                      73                      45                      31                      14                      59

6. Describe the action on the ArrayList (or array) elements through the larger for loop of the **INSERTION SORT**.

W                      Z                      K                      S                      I                      B                      G
